Summary	The project concerns analytical documentation of the archive of the Athens and Epidaurus Festival, one of the oldest festivals in Europe. The Athens and Epidaurus Festival is a leading public cultural organization, which in its 66 years of operation has hosted some of the biggest names of the Performing Arts from the Greek and international scene, in collaboration with the most important Greek and international artistic organizations, attracting crowds of spectators from all over the world. The documentation team records and processes rare documents and audiovisual materials, while at the same time compiling the complete ergography of the events organized by the Athens and Epidaurus Festival.
